America's shifting trade wars: from Japan to now China, could India be next?

We have been seeing a flurry of connected switches light bulbs, and the Betty smart plug is one such device you can own.

The Internet of Things is gradually finding a place around us. It is not really what we or the companies would have visualised, but connected devices are slowly becoming a part of our lives. In my home, I have at least three devices that I can control remotely. But I did not buy any for them primarily for this feature. However, you can buy affordable IoT devices that let you control parts of your lives remotely. We have been seeing a flurry of connected switches light bulbs, and the
